RE: SANITARY SEWER FEES

Attention Mr. E. B. Crosby, Business Manager
Building 3

Gentlemen:

Recently we received a request for sanitary sewer service to your addition now under construction.

The City's standard sewer connection charge is made up of three parts, $200 per acre for existing facilities, $3.50 per front foot, and $150 each for 4-inch laterals. The laterals are installed by City crews.

A review of our records indicates that no sewer connection charges have been paid for the lands acquired by your Company on or about January 3, 1957 and April 1, 1962, as shown on attached plat. Since improvements have already been constructed on the parcel acquired in 1957, and an addition is now under construction, it is believed reasonable to expect the fees for this parcel be paid at this time.

These fees are as follows:

A. Parcel acquired 1957

Existing Facility Fee	13.883 acres	@ $200.00/Acre	$2,776.60
Front Footage Fee	660.00 feet	@ 3.50/Ft.	2,310.00
		Sub Total	$5,086.60

B. Parcel acquired 1962

Existing Facility Fee	10.00 acres	@ $200.00/Acre	$2,000.00
Front Footage Fee	330.00 feet	@ 3.50/Ft.	1,155.00
		Sub Total	$3,155.00
		TOTAL for Both Parcels	$8,241.60

The areas and dimensions used for these calculations have been taken from the Santa Clara County Assessor's maps, and can be revised if your deeds indicate other dimensions.

The fees for the northerly 10.00 acre parcel (A), a portion of which is now being used as a parking lot, may either be paid now or at such time as the parcel is improved. Deferring payment of the fee for Parcel B will reduce the fees now due to $5,066.60.

The various fees outlined in this letter must be paid before any further sanitary sewer connections can be installed for the subject property. The cost of sewer laterals which will be required for new connections is not reflected above. The cost for these can be determined as soon as we are advised as to your needs.

Your prompt attention to this matter will be appreciated.

Very truly yours,
