On April 27, 2016, the Fresno County Agricultural Commissioner's Office (CAC) received a Report of Loss, Non-Performance or Damage Report (ROL) regarding $150,000.00-$1,000,00.00 in damage to a 145 acre fresh market onion field. On April 21, 2016, the operator's representative observed burnt and dying leaves. The damage is suspected to be the result of an aerial application of Gramoxone and

LI 700 to a cotton field 2.5 miles north west of the affected field. Fresno CAC is investigating the incident.
