On April 11, 2017 at approximately 10:02 a.m., a 13 year old male ingested approximately a quarter cup of bleach in an attempted suicide. School nurse contacted California Poison Control Center stating that male had stopped vomiting and appeared to be recovering. He has a history of depression and is on medication. On April 11, 2017 Yolo County Agricultural Commissioner's Office received notification for attempted suicide from California Poison Control Center.
Worker and Health Safety determined that the bleach was not used as a pesticide.
