John T. O'Halloran, City Manager

Blaine L. Harrison, Asst. Director of Public Works

SEWER MAIN COLLAPSE: West of Moffett Interchange Access Road.

File - Sewers, 1966

A stoppage in the 15 inch "Terra Bella - Evandale Trunk Sewer" has occurred and upon investigation it was found that the extent of break and depth of the sewer renders it impossible for City crews to make the necessary repairs. The break has occurred quite close to the State access road which, coupled with the importance of the trunk sewer operation itself, confronts us with an emergency situation. As yet the cause of the failure is undetermined.

After discussing this matter with you on March 30, I immediately contacted Mel Lutz of McGuire and Hester, since he has a large backhoe in the immediate vicinity. I instructed him to proceed with the necessary work on a cost plus basis and to bill us subsequently.

I shall keep you informed as to the progress and outcome on this matter.
