Attachments: Region 6 for Administrator Hearing Prep. INTERNAL-edit.docx

Importance: High

Alison got this info from an update Wren sent her recently. It looks OK to me, just a small typo in the last sentence you can see in the attached.
I can't think of any additional information, unless David Gray has heard something recently from the states that we may not have heard about yet.

Hi everyone,

We've been asked to put together a background paper on EtO – including regional activities – for an upcoming hearing with the House Science Committee. One of our team put together the attached based on the update you all sent a couple of weeks ago.

Please review to make sure this is current – and add any additional info you think the Administrator may need. We've been asked to send the full document tomorrow by noon, so if we could get it by 11, that would be great.

Eddie Bernice Johnson is the committee chair.

Thanks – and sorry for the tight turn.
-Alison
