Respectfully, Intake Investigator

2-18-13

My name is [redacted] and I want to report a Health Hazard at three diffrent apartment complexes. There a Housing Investigation as you read this missive. But the problem continues, people have raw sewage running threw their apartment and the Land Lord refuses to fix the problems. People are continuing sick, and tenants have ~~had~~ had doctor reports, telling the patient to inform the Landlord thats its something in water thats making tenants sick. I sent these pictures as proof of negligence of the Landlord [redacted] she has 3 diffrent properties that has the issues, its over tenants, that basically live in legalize condemn building. These ~~prop~~ properties were built in 1965, 1971, 1970 and has no apparent upgrades as use advertised on the Internet. Thank you for your time
