Subject: Congressional notification of Magellan Pipeline Spill

Carolyn,

Here are the details regarding the Magellan pipeline spill. When you send a message to the members please copy or forward after to myself and LaTonya.

On the morning of January 25, 2017, EPA was notified of a spill from the Magellan pipeline near the Iowa/Minnesota border in Worth County, Iowa. Magellan reported that a 12-inch diesel fuel pipeline was leaking. EPA continues coordinating with county emergency agencies, Iowa Department of Natural Resources and Magellan Pipeline on the response.

EPA determined late yesterday that the spill was not impacting any waters; therefore, Iowa DNR assumed the lead for oversight of the local Unified Command in the Worth County Emergency Operations Center (along with the RP, Magellan Pipeline).

Iowa DNR and local officials are scheduled to hold a press conference at the on-site Operations Center this morning at 10:00 a.m. CT. EPA has two OSCs on site.

Congressional Members:

Rep. Rod Blum, 1st District of Iowa
Sen. Joni Ernst
Sen. Chuck Grassley
