APPROVAL OF GROUNDWATER MONITORING WORK PLAN 2007, BOEING REALITY CORPORATION, FORMER C-6 FACILITY, 19503 SOUTH NORMANDIE AVENUE, LOS ANGELES (SLIC NO. 410; SITE ID NO. 1846000)

Dear Mr. Scott:

We have received the "Groundwater Monitoring Work Plan 2007, Former C-6 Facility, 19503 South Normandie Avenue, Los Angeles, California", (Work Plan) dated February 5, 2007, prepared by CDM. Groundwater beneath the former facility contains various volatile organic compounds exceeding their respective California Department of Health Services Maximum Contaminant Levels (MCLs) and Water Quality Control Plan (Basin Plan) objectives. Boeing proposes to conduct a site wide annual monitoring event in March 2007, a plume boundary specific, semi-annual monitoring event in September 2007, and quarterly sampling on six new monitoring wells installed in 2006.

The Work Plan presents the rational and procedures for the proposed facility-wide groundwater monitoring program for 2007. The groundwater monitoring program proposed is in addition to the required monitoring being completed under the waste discharge requirements (WDR) monitoring and reporting program implemented at the site. We have reviewed the Work Plan and approval its implementation. Please submit semi-annual reports presenting the results of the 2007 groundwater monitoring program by **May 30, 2007** and **December 31, 2007**.

If you have any questions please call me at (213) 576-6738 or email at atownsend@waterboards.ca.gov.

Sincerely,

Ana M. Townsend
Water Resources Control Engineer
Site Cleanup I Unit
