Hi, Virginia.

I've circled back with my team, and we have some recommended dates. For our group, May 13 (2:00-4:00 EST) and May 19 (2:30-4:30 EST) would work well. If neither of these times work, please feel free to recommend some other options and we will be as flexible as we can.

As far as attendees, it will be myself, Ken Comey (Director, Regulatory Affairs and Compliance), Steve Hoyt (Environmental Advisor), Ashley Zapp (Environmental Advisor), and Cameron Loth (Compliance Advisor). Steve, Ashley, and Cameron are all on my team at the refinery, and Ken is part of our central compliance team.

Thanks,

Jonathan

> You don't often get email from galinsky.virginia@epa.gov. Learn why this is important Feedback

Hi Jonathan,

Thank you for reaching out. We would be interested in having you give us a presentation as you described. I'm cc'ing on this email Sasha Letuchy and Kosta Loukeris, who were also involved in the CD negotiations and involved in monitoring the CD implementation, as I believe they would also like to participate in the meeting. Who else from BP-Husky would join in?

Please let us know some dates that would work for you. Also FYI - I'm expecting to be on maternity leave by the end of May. I anticipate that we should be able to have this meeting before I'm gone, but Sasha and/or Kosta will be the main contacts for CD issues or questions while I'm out.

Best regards,

Virginia Galinsky

Subject: BP-Husky Toledo Refinery update

Hi, Virginia.

I am Jonathan Cathers, the Environmental Superintendent at the BP-Husky Toledo Refinery. I don't believe we have met, and I wanted to take a minute to introduce myself. I am interested in getting your thoughts on how we can best facilitate a positive working relationship between the agency and our refinery. As you know, we are a little over a year into the 2020 consent decree, and I'm sure you and your team have seen the submittal of our first semi-annual report. Would it be helpful for us to get together to discuss some of the highlights from that report? I am happy to develop a short presentation to update you on our CD implementation and compliance efforts over the past year, as well as discuss our plans for the future?

Happy to hear your thoughts.

Thanks,

Jonathan Cathers
