UPDATE TO INCLUDE THE SF 58 SECTION WORKING MATRIX AND CALL IN NUMBERS

Call in numbers:

[redacted] (b) (6) code [redacted] (b) (6)

All –

To follow up from Friday's afternoon meeting, I would like to schedule our next follow up meeting this Wednesday, May 24th at 3:30pm.

For your information, the Administrator formally announced the Superfund Task Force this afternoon through a press release. Our working draft memo was included and discussed in the press release. https://www.epa.gov/newsreleases/epa-announces-superfund-task-force

Kell wanted you to have a sense of his vision for proceeding. First, this is inclusive. Those of you that wish to participate please do. Second, we will also try to involve all of our Regional Superfund Division Directors if possible. Our first meeting will discuss initial groundwork for the Task Force, including our general directive. While we could easily overwhelm the process with goals, it would be the intent that we agree on 8-10 goals based on input and the Administrator's directive. Based on those identifications, we will determine a captain

for each goal or segment, should we determine to combine some of these areas. To efficiently use our time, I suggest we allow that Captain to choose their resources. Kell intends to sit in on the meetings of these various teams. After the teams have formulated their strategies, we will reconvene as a group and hear the presentations. It will be each of our responsibilities to vet the strategies and be sure others are not warranted or suggest deleting some. Once these are set, the teams again will do individual work to prepare action steps, time frames and assignments. Our final meeting should then be to adopt the plan, agree on final form and prepare for its presentation. Once approved all we have to do is make it work.

This is intended to be as least time invasive as possible-three large group meetings and a number of smaller ones. We are asking Jim Woolford to send out to all of you the 58 section work paper that he, Cyndy Mackey and Byron Brown put together. This will allow a great jump start to each of our thought processes as far as perhaps some goals, some strategies and some steps. This is going to be a great effort. Thanks to all of you for your work to date and for that which you will be contributing in the future

DJ asked that I set up a policy coordinating working group to begin focusing on what the bill is going to look like and some of the bigger policy proposals that will be included. The composition of this working group is intended to be at the level just below deputy principals. With infrastructure being so big in scope, our plan is to have a series of meeting over the next few weeks dedicated to various topic of the bill. We would like for our first meeting to be next week, which will focus permitting. It is tentatively scheduled for Thursday, June 1 from 3 - 5 in EEOB 472. If I can find conference room availability for Wednesday at that time, we will have this meeting Wednesday from 3 - 5. I will let you know on Tuesday morning if I am successful in finding a conference room for Wednesday and send out the WAVES link for access into the EEOB.

Here is a summary of the permitting section. It does not include a final list of all the permitting lane 5's we have been discussing. We are still working through those. Rather, it shows the topic areas that the permitting section will cover and some of the broader ideas that we intend for those sections to cover. For this meeting, we will discuss the proposals that should be included under those sections.

Request:

Swift Fuels' corporate leadership, Chairman Rob Broin, and CEO Chris D'Acosta, will be in Washington D.C. on June 6, and 7, and the morning of June 8. Rob Broin is Founder and Chief Technology Officer of Broin Companies (which is now a part of POET, LLC). Both bios are attached.

Swift Fuels is a cutting edge global leader in the development of high-performance unleaded aviation fuels. Rob and Chris would like to brief you on the status of the Piston Aviation Fuel Initiative (PAFI), of which Swift Fuels is a finalist, as well as the future of unleaded avgas at the EPA and FAA.

BACKGROUND

Swift Fuels, headquartered in West Lafayette, IN, is a global leader in the development of high-performance unleaded aviation fuels. In response to the general aviation industry's need to eliminate lead emissions, Swift has developed a 102 Motor octane unleaded aviation gasoline, a replacement for the leaded aviation gasoline (100LL) used in piston-powered aircraft today.

LEADED AVGAS

* Prior to environmental pressure thirty years ago, the lead concentration in general aviation fuel was double what it is today.
* 100LL is being scrutinized as it is currently the source of nearly 50% of annual domestic lead emissions.
* On October 12th, 2006, a petition was filed with the EPA asking the EPA to determine whether lead emissions from general aviation pose a significant risk to human health.
* If sufficient information was found, the EPA was asked to make a formal Finding of Endangerment to public health and welfare. This would result in the regulation of lead emissions caused by the combustion of 100LL.

The Piston Aviation Fuels Initiative (PAFI)

* In response to the petition, the FAA, working in collaboration with the EPA, established PAFI, a government and industry partnership, to facilitate the development and deployment of a new unleaded aviation fuel that can be readily available across the GA fleet.
* In September 2014, the FAA accepted four fuel formulations into the PAFI Phase 1 test program.
* In 2014, the FAA received 17 fuel formulations from six companies, four of which ultimately were accepted into the PAFI Phase 1 test program, including Swift Fuels.
* In March 2016, the FAA announced fuel formulations from Swift Fuels and one additional company were selected for Phase 2 engine and aircraft testing. The testing will begin this summer and conclude in 2018.

ISSUE

* Upon completion of the Phase 2, Swift Fuels is seeking FAA fleet-wide certification for its high-octane fuel, under the coordination of the FAA's PAFI program
* Per 49 U.S. Code § 44714, an EPA endangerment finding under the Clean Air Act gives the FAA the authority to prescribe and enforce standards for aircraft fuel.

49 U.S. Code § 44714

The Administrator of the Federal Aviation Administration shall prescribe—

(1) standards for the composition or chemical or physical properties of an aircraft fuel or fuel additive to control or eliminate aircraft emissions the Administrator of the Environmental Protection Agency decides under section 231 of the Clean Air Act (42 U.S.C. 7571 <https://www.law.cornell.edu/uscode/text/42/7571>) endanger the public health or welfare; and

(2) regulations providing for carrying out and enforcing those standards.

Subject: RE: Sec 3 Registration for Mosquitos

Nancy,

Many thanks for your time this week, and for the time that you put into coming up to speed on this very complex matter.

We are very pleased to hear that OPP has confirmed that we can submit a Section 3 application before the transfer of jurisdiction, and we have started ramping up the resources to complete our Section 3

application as soon as possible.

As we discussed the other day, this process has become quite complicated, with a number of different aspects of it with different agencies, and a number of possible regulatory outcomes. Before we focus all of our efforts on the Section 3 application, I'd like to confirm a couple of key points that are crucial to ensure that we are able to release OX513A males in the summer of 2017. First, that FDA will finalize the guidance to transfer jurisdiction to EPA as soon as possible. As I believe I mentioned on Thursday, OGC has taken the position that EPA cannot issue a Section 3 registration until jurisdiction has formally transferred from FDA (which, as a legal matter, I believe is correct). Therefore, that transfer should take place as soon as possible. FDA has essentially been waiting on Dr. Gottlieb to be confirmed before moving on this action. It is my understanding that once the FDA staff has his concurrence the transfer can be effected almost immediately. Second, that OPP is prepared not only to accept a Section 3 application, but will diligently proceed to evaluate it expeditiously and be in a position to render a decision in time to enable 2017 releases. As we discussed, there is a substantial body of data available that demonstrates the safety and efficacy of OX513A, and I fully believe that these data are sufficient for purposes of a registration. We have previously been told by BPPD that new toxicity data must be submitted to qualify for a registration. As I noted, I have been reviewing, defending, and issuing pesticide registrations since the 1990s, I do not believe that the new data are necessary for the registration – given the substantial existing database on the safety and efficacy of OX513A. We are developing these data, and we would be pleased to submit them post approval, i.e., we would be pleased to accept a conditional registration with the understanding that the data will be submitted within any reasonable time frame that EPA sets. The new data are not necessary, however, to meet the FIFRA standard and register OX513A now.

It is my understanding that this is where Thursday's meeting came out. Before we reach out to Rick and BPPD, however, to discuss the details of developing and submitting the Section 3, I wanted to confirm this understanding.

Please feel free to contact me at the number below, or on my cell phone at 240 483 7786 at any time that is convenient for you.

Again, many thanks for your attention to this matter.

Best,

Keith

Subject: Sec 3 Registration for Mosquitos

Tom, Roy, and Keith,

It was a pleasure to meet you all today (and yesterday). The work you are doing is fascinating to me, not to mention the large potential public health significance.

I've checked with Rick Keigwin, the Acting Director of our Pesticides office, and he has confirmed that you can indeed submit the registration request, and begin the process, before the authority is transferred from FDA to EPA. Rick is cc'd above if you have any specific questions about how to make this happen. I'm sure his staff can provide assistance.

Regards,

Nancy

Hello all,

A group from Earthjustice is in town for a DC visit/week and asked if you could meet with them on Tuesday. Here is the note they sent to us to get the meeting started:

I am writing to request a meeting with DAA Shaw on Tuesday, June 13th. We – Earthjustice – are working with Physicians for Social Responsibility, Moms Clean Air Force, Interfaith Power and Light, National Parks Conservation Association, Asthma and Allergy Foundation of Missouri, Hoosier Environmental Council, and a few others, on a lobby day fly-in to support the Clean Air Act and strong public health safeguards, and in particular the need for strong ozone protections.

We have about 30 people representing six states and in addition to our Hill meetings we would like to also send a delegation to meet with the right people at OAR. Additionally, it would be great if someone from the EJ Office could join. We'll put in a separate request over there, but wanted to flag that for you, in the hopes that the schedules could align.

Could something work next Tuesday? Please give me a call if you have any questions about the fly-in or this request.

I spoke with Terry McGuire from Earthjustice and he thinks we will likely have 4-8 people at this meeting from their organization.

See you Tuesday (Please delegate if you have a conflict).

RE: Meeting request - 6/14

Greetings. I represent the American Concrete Pressure Pipe Association. Our members products are used in drinking water and sewer applications in 90 of the top 100 metropolitan areas in the United States.

ACPPA is a strong support of the SRF program. Maintaining and increasing funding for the SRFs is a priority legislative issue for our organization.

Our association's president - Richard Mueller - will be in Washington, D.C.

on Wednesday, June 14. We'd like to meet with someone in your office to introduce ourselves, establish a line of communication on SRF administration/implementation issues and learn more about current issues and challenges facing these important programs.

Thank you for considering our request.

Can you attend, Byron, David or Justin? Kell is in MO that day.

This follows up on my email a couple of weeks ago about trying to set up a meeting with USWAG to discuss its petition and potential changes to the rule. It looked like this time worked for most people. It would be helpful to do a pre-meet to discuss options.

I expect USWAG will bring its outside counsel. Please invite DOJ. We can set up a call-in number if that is easier for DOJ.

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day

since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject Senior Leadership Council Meeting - Day 2
Location WJC-N 3rd Floor, The Green Room
Show Time As Tentative

Hi everyone –

An important part of the FY 2019 budget development process is the Senior Leadership Council meeting. This meeting brings together all the senior leadership, HQ and the regions, to discuss agency priorities and resource needs in order to inform decisions for the FY 2019 Budget due to OMB in mid-September. Given there are many people new to this effort, Tuesday afternoon is dedicated to hearing from the program teams to establish a common understanding before launching into Wednesday's planning and resource discussions. Wednesday's sessions begin by setting the stage with presentations and discussions on key building blocks for the FY 2019 budget followed by small group and full group discussions to identify programmatic options for consideration in the FY 2019 OMB Submission. On Thursday, updates are proposed on the First Line Supervisor Advisory Group efforts and Executive Order implementation.

An agenda with more details will follow shortly and be included in the meeting invitation. You should receive and invitation for each day since the times vary. In addition, invitations to the +1s for Wednesday, 7/19, will be sent separately.

If you have any questions please do not hesitate to reach out to Mike Flynn or me.

Thank you, Robin

Subject: follow-up meeting on CERCLA108(b)

Mr. Jackson:

On behalf of Freeport-McMoRan, we appreciated the opportunity to meet with you on May 5, 2017, concerning EPA's Proposed Rule on Financial Responsibility for the Hardrock Mining Industry (CERCLA 108b). You may recall that at that meeting, we discussed key points in Freeport's written comments filed in the docket on that same date and provided you a hard copy of those comments. Our view is that EPA's proposed rule did not properly consider state programs governing hardrock mining, particularly mining on private lands, and significantly underestimated the economic impact of the rule on the hardrock mining industry. As we stated in that meeting, Freeport-McMoRan, a major U.S.-based company that is also the world's largest publicly traded copper mining company, updated its Risk Factor relating to this proposed rule in its Form 10-Q filed with the SEC for the first quarter 2017. In that update we indicated that it would be difficult, if not impossible, to obtain the level of financial assurance mandated under the proposed rule.

At the conclusion of our May 5 meeting you indicated that the agency would be interested in further understanding the demonstrated evidence regarding regulation of hardrock mining by state programs. We will be filing additional comments on the proposed rule in early July and those comments will include extensive information on the

state programs relevant to our operations (Arizona, New Mexico, and Colorado). We would like share those observations with you.

Last, we are ready to discuss the administrative process and the prior involvement of the D.C. Circuit Court, including the deadlines in the settlement agreement between EPA and environmental groups and the Court's approval of those deadlines, over the formal written objections made by Freeport to the Court.

We are available to meet during the week of July 17 (our preferred dates), on July 7, or during early August on a day convenient for you. We look forward to having a follow-up conversation with you on this proposed rule that is financially material to our company

Dear Patrick,

Thanks for the response. How does 2:00 pm EDT on July 25 work? If not, is there another time that afternoon that would work? Thanks also for the note about the comment period --- Asarco will be submitting comments by that date as well.

Best regards,

Mark

Mark DeLaquil
Partner

I hope all is well. I am reaching out concerning EPA's CERCLA financial responsibility proposal. I represent Asarco LLC, which will be filing comments on the proposal. Asarco would also appreciate the opportunity to discuss its concerns with you or another appropriate EPA official.

Duane Yantorno, Asarco's Corporate Manager for State and Federal Regulatory Affairs, will be in Washington from Arizona in late July so I am hoping to schedule the meeting for either July 25, the morning of July 26, or July 28.

Please let me know if any of those dates work schedule-wise. If not, I can propose alternative dates. Also, if there is any other information I can provide to assist, please let me know.

One last note so that you are fully informed, in February I raised the possibility of a meeting with Kevin Minoli. We tabled the issue at that time due to the extension of the comment period.

Hi all, looking forward to our meeting tomorrow afternoon!

We'll meet here at USDA, since it's a relatively central location, and I can easily secure a room here.

Alex, we'd love to host you, if you can make it here – otherwise we'd love to have you join by phone, if you're available.

When you come to the front desk here at 1400 Jefferson Drive SW, please have your picture IDs ready and ask for Evelyn Suarez.

Thanks so much!

Hi all, great news….here's the time where most (and perhaps all) of our calendars line up for a get together regarding allocation formula factors and goals/performance measures: Thursday at 1:30pm.

We can host at USDA, or we'd be happy to meet at DOT or CEQ. (Jim, Finch, and Alex – do you have a preference?)

Thanks so much and looking forward to it!

Subject: next steps on Rural proposal

Hi DOT and EPA teams, good morning!

Thanks again for making time on short notice for our conversations yesterday! Very, very helpful to think through this with you all.

And so that we can come closer to nailing down our collective best thinking on the Rural portion of the proposal, I'd like to schedule another get-together for next week, regarding formula options and performance/outcome metrics.

You'll be receiving a Doodle scheduling poll email in a few mins – this will easily allow you to check boxes for which dates/times you're available next week, and also see when others are available. Note that the location in the Doodle scheduling poll will say USDA Whitten building, however we can meet at DOT, EPA, or perhaps CEQ (if Alex and/or Allison would want to participate). Also, if you don't receive the email in the next hour or so, let me know (perhaps your agency's server may block it, so I'll attempt to resend directly to you).

Also, am happy to talk by phone if you have any questions. 202-597-0486 is my cell.

Thanks so much!

Subject: Correction of EPA's Blanket Prohibition on Beneficial Use of

Coal Combustion Residuals to Reclaim Clay Mines

Dear Mr Johnson;

I am writing on behalf of Charah, LLC ("Charah") to request that EPA correct an erroneous and counter-productive interpretation of the coal combustion residuals ("CCR") rule that imposes an absolute prohibition on beneficial use of CCR to reclaim clay mines. Details of our issue and request are included in the attached letter. Charah requests that after review of our letter and matters related to the issues, we, and other interested parties, be granted an opportunity meet with you and other appropriate EPA representatives to discuss the issues. A copy of the attached letter has been mailed to your office.

Charah appreciates your consideration. If there are any questions, please contact me at (502) 410-9295 at your convenience.

Thanks,

Danny Gray

WELCOME REMARKS – Sam Coleman, Acting Regional Administrator

WEATHER/STORM FORECAST –

NOAA tracks the storm and up-to-date information is available at http://www.nhc.noaa.gov/ .

MANDATORY EVACUTION UPDATE –

Update of local jurisdiction Reports

FUEL AVAILABILITY UPDATE –

Update of State Reports

STATE/TRIBAL FEMA ASSISTANCE REQUEST STATUS –

As of today, FEMA has not received any assistance requests from the

states of Texas or federally recognized tribes. Texas Governor Abbott has declared state of disaster for 30 counties. Louisiana Governor John Bel Edwards declared a state of emergency for the entire state of Louisiana in anticipation of severe weather as a result of Hurricane Harvey.

EPA READINESS/PREPAREDNESS –

While EPA has not been formally tasked by FEMA at the request of impacted states or tribes, EPA is

SUPERFUND NPL SITE STATUS –

In preparation for severe weather impacts, EPA assesses conditions at the NPL Superfund sites in the storm's pathway to identify potential impacts and countermeasures. Following the storm and receding floodwaters, EPA conducts rapid assessments to identify damage at sites and initiate cleanup plans if necessary.

PRIMARY INDUSTRIAL FACILITIES –

In preparation for severe weather impacts, EPA assesses conditions at the major industrial facilities in the storm's pathway to identify potential impacts and countermeasures. Following the storm and receding floodwaters, spills and releases are reported to the National Response Center. NRC notifies US Coast Guard or EPA based on preapproved jurisdiction boundaries. EPA conducts follow up inspections and damage assessments in response to reports within EPA jurisdiction.

PUBLIC WATER SYSTEM STATUS –

About 300 Public Water Systems are in the path (red zone) of Hurricane Harvey in Texas. Water systems often have problems due to flooding or loss of power during Hurricanes. Region 6 has developed a tracking system for us to identify systems in the storm's pathway. Both Texas Commission on Environmental Quality and Louisiana Department of Hospitals have uploaded their potentially impacted systems into Response Manager which enables planning for rapid assessments to restore water systems after the storm passes and flood waters recede.

EMERGENCY FUEL WAIVER STATUS –

The typical emergency fuel waiver request follows a path something like the following. An industry member will identify a failure in the fuel distribution system or at a refinery and raise it to Kurt, DOE and/or the state and Region. Since gas stations typically take deliveries two to

three times per week, we normally have 24-72 hours before the system failure will lead to a retail shortage. In that time, the EPA/DOE team will hold calls with the potentially impacted state and industry to validate the issue and confirm relief is justified. Once an issue has been identified, the state air director on behalf of the governor will make a request for specific relief. The OECA team drafts a letter granting the relief for the Administrator's signature. DOE and OAR give concurrence on the letter and it is sent to the Administrator for signature. The signed waiver is quickly then disseminated to the impact states and industry members. The EPA press team will also issue a press release to increase awareness of the actions being taken to address potential fuel shortages.

COMMUNICATIONS UPDATE –

DHS Public Affairs initiated the National Incident Communications Conference Line on Thursday, August 24 and calls continue daily. The NICCL is a standing conference line designated, maintained, and supported by DHS Public Affairs as the primary means for interagency incident communications information sharing during an incident requiring Federal coordination. DHS Public Affairs provides guidance to Federal interagency public affairs headquarters staffs and affected authorities through the NICCL.
