Re: Orange County Sewer District #1
SPDES Permit No. NY0027901
EPA Pretreatment Compliance Inspection – September 21, 2022

Dear Commissioner Denega:

On September 21, 2022, the United States Environmental Protection Agency (EPA), Region 2, and its contractor, PG Environmental, conducted a Pretreatment Compliance Inspection (PCI) of Orange County Sewer District #1's ("District") Industrial Pretreatment Program. The purpose of the PCI was to evaluate the District's compliance with the General Pretreatment Regulations for Existing and New Sources of Pollution at 40 CFR Part 403. Enclosed is the final PCI report detailing the inspection findings.

Please note that EPA will also be issuing an Information Request and Administrative Compliance Order (together, the "Order") which will include a schedule for complying with the General Pretreatment Regulations for Existing and New Sources of Pollution and requirements specified in the District's State Pollutant Discharge Elimination System (SPDES) permit issued by the New York State Department of Environmental Conservation. The Order will also request information regarding how the District has or will address the Areas of Concern identified in the PCI Report.

If you have questions regarding the PCI report or forthcoming Order, please call me at (212) 637-3950 or contact Christy Arvizu via e-mail at arvizu.christy@epa.gov.

Sincerely,

LARRY GAUGLER
