Larry E - if you could get me any comments by mid-day tomorrow, that would be great.

Erik/Earl - I tweaked a bit to avoid use of "final EEMs."

Hi Lynn

Per our conversation regarding the new AO initiative to strengthen coordination with the SAB(and thus the need for a one-pager on Tier 1/2 pre-proposal actions), I put together a draft one pager for the CERCLA EPCRA Farms NPRM in the format required and highlighted the areas dealing with the supporting technical analysis that can use your input. The attached memo should give you a bit of background regarding this new initiative.

We need to assume that all the information shared in this one-pager will be public as it will be part of an SAB deliberative process, so keep this in mind as you take a look at it. Note that the first section on brief description came right from the Reg. Agenda, so this will not be changed.

Will need to have this cleared by your management if possible by the end of the week so it can go to M/L/B for review the following week.

Thanks.

P.S. One of these will also need to be done for Subpart J as well. Will try to get this to you all shortly.
