Hello Gentlemen,

Attached is a JARPA for removal of the Sesko pontoons. The contractor (Thompson Drilling) is now proposing to cut the pontoons up and place the scrap on a barge. WDFW wanted to know if DNR had any concerns with this proposal.

Redacted ?

Lindie,

Attached is the JARPA that Paul submitted. I'm wondering if it would not be better to cut the scrap in place, capturing the debris of course, then remove the pieces in ¼'s on a barge.

Let me know what you think, thanks.
