Ann is in KC this week. She said she'd be checking email/working again at 11AM (pacific time).

If it's going to be in the SRP release we can drop it and add in some language about regional haze (since it's absent!!). I got Bill, Colleen, Anita and Niloufar's edits. I'm going to try and incorporate everyone's comments and resend. Ann, do you have any comments? If so, I would love to get yours. Thanks!

I see that the TWG paragraph came from the PR for the Supplemental Proposal. Just FYI.

Thanks, Margot. I have made some suggested edits. Anita may have better wording. I like the quote and I like the mention at the end of the other benefits of the TWG agreement. Since we are not including those in our action, it might make people feel better if we say something about them where we can.

Thanks Colleen, here's a rough first cut – not sure how we want to characterize the TWG submission. I tried to capture the nature of it in a simple manner, but am always open to your suggestions! [redacted]

Hi, Niloufar and Margot,

Debbie has asked that we try and polish the NGS comm strat early this week. Because signature of the package is not completely in our control, we need to be ready in advance, but we are trying to get it signed no later than the week of July 21st. We are supposed to have time with Jared next Monday, July 14th, at 3:30 PM to go over the comm strat and he will concur on the package at that time. (Anita is confirming that with Abi.) I assume he will also weigh in on the quote in the press release.

Niloufar – Have we heard back from Andrea on the Q's and A's and the 111(d) response?

Margot – Do you have a draft press release and a tentative quote for Jared to review? He likes to do embargoed interviews, I know, so let us know your thoughts on that. I should let you know that HQ and Jared will be notifying the TWG and the tribes in advance of signature. They are talking a week but Anita and I hope we can change their mind to 2 days. No need to tell you this could potentially play havoc with press interviews and such.

Colleen
