I believe Janet will call Letty Belin and Debbie will call Kelly Barr of SRP. I will likely call Dave Palumbo of BOR and Bruce Polkowsky of EDF.

Thanks Anita.
I cleaned it up a bit more too. I just left and urgent message for Andrea regarding the language. She is usually very prompt. I will follow up again in the morning.
Colleen will you or Debbie be calling the TWG reps? I put them along with Dave P under your calls but let me know if that is not so. I can pull their numbers from the old comm strat and insert.
I am keeping the PR separate for now for the sake of version control. That will be sent all around the universe in the next week.

Thanks,

- - Niloufar

I made a few minor edits, mostly just in response to the remaining comment bubbles.

I sent it to her last week but I will call her again. She is clearing it with others, I believe, which is why it is taking her a while.

Thanks,

- - Niloufar

It's on my list. I didn't get to it today. But will do it on Monday. If you don't hear from me bug me again. Next week's speeches have my head spinning....

hey there - I don't mean to harass you but when you get a chance would you look at the NGS messaging I sent yesterday?

Thanks,

- - Niloufar

Hi Andrea,
Hope you are well. I am following up on Tamara's suggestion that you should look at our comm strategy for the NGS final. We are most interested in your thoughts on pages 15 and 16 and also the 111(d) statement as it relates to NGS. Any other suggestions or edits are also welcome.
By the way, how did Janet like her trip to Long Beach? Hope it went well for her.

Thanks,

- - Niloufar

Colleen - I would run them by Andrea Drinkard in John Millet's comm office. I think a few of them do need adjustments, but Andrea knows better than I exactly what we are trying to say/not say for these kinds of questions right now.

I skimmed the rest and it all looks reasonable. Except – where is the part where you all pop open champagne for having finally gotten this across the finish line?? ☺

Hi, Tamara,

This is our draft communications strategy for NGS. I was wondering if you could look at the internal Q's and A's on pages 15 and 16 to see if they are OK or need to be run by someone in particular at HQ. We would also welcome your feedback on anything else, but I know you are busy and may not have time. Thanks so much!

Colleen
