Ryan,

The Heritage Foundation has been the True North for conservative policy since 1973. **With you by our side, we can keep being America's guiding light for many years to come.**

It's a crucial time for our nation. The left is relentless in pursuing its radical policy agenda. They want to destroy the Electoral College, give illegal aliens the same voting rights that you have, and trade America's founding principles for European socialism—which will create more dependence upon the government and will limit your freedoms. We need to stand up for what we believe, and we have to do it now!

With your support, Heritage can produce research and policy analysis that offers real solutions to America's problems. The ideas that win arguments, change minds, and shape history are forged here.

Through the support of our members, we can provide lawmakers representing you in Congress with conservative solutions that create more individual liberty and freedom. But we won't have the resources we need in this critical year if you aren't a member.
