Good morning Alice,

You're definitely not being a pest. We understand that this work is very high priority. The status is still the same as Chris described in his earlier email. The next action rests with the Contracting Officer to respond with consent. ERG is ready to authorize AlterEcho to start work as soon as we receive that consent. We certainly hope that will be soon.

Jan

Any update on this Task Order? I was hoping to have had it started by now.

Hello Alice,
This Task Order has been awarded. We are in the final stages of onboarding AlterEcho but cannot have them start work until we have the Contracting Officer's consent to allow AlterEcho to be a subcontractor under the contract. I expect that shortly. It probably makes sense to wait to schedule our preliminary call until after we have received notification from the CO that AlterEcho is authorized. That way, they will be able to participate. Of course, we (ERG) can go ahead and schedule something if that is your preference.
I look forward to working with you.
-Laura
