---

Guy and Terry,

My Section is dividing responsibilities in dealing with activities dealing with air monitoring and Exide-Frisco.

Ruben from now on will be handling any policy questions that may involve our Section in dealing with Exide-Frisco's air monitoring. Please include him communications dealing with meetings (internal and external) and other policy discussions especially in my absence. Bill will be handling any specific data questions that may come up.

Thanks for everything you do to keep us in the loop.

Maria
