Thanks Elizabeth, that all makes sense. I agree that the information request should be to both.

Hello, Tamara. We don't really need to talk. It would probably make sense for me to draft an information request regarding finances and have you guys review it to see if I'm on target and if you have comments. If you have any questions that you know you want to ask, you can send that to me. Do you currently have any information on their finances?

I suggested to Steve that we send an information request to Flint Hills and Williams. Do you agree with that approach?

Hi Elizabeth,
I just spoke with Steve and he said he spoke with you and things are on track for a draft letter. Do you still want to catch up sometime tomorrow?

Tamara

Hello, Tamara. Let's schedule a time this week or next to talk further about this. I would be happy to send out an information request, but I'd like to talk with you about the specific information you

would like to seek. Let me what times you have available.

Subject: Follow up to Sept 26 EPA/DEC meeting

Good morning,
As a follow up to our meeting on Thursday September 26, 2013; DEC would like to ask for assistance in requesting financial information from Flint Hills Resources. Because the current efforts being conducted by Flint Hills towards site characterization are not part of a formal legal agreement, a request for financial information from DEC would likely hinder the progress of these efforts.

We appreciate all the feedback you provided during our meeting last week and are looking forward to working with you on this project.

Sincerely,
Tamara
