CC: Cynthia Caporale/ESC/R3/USEPA/US@EPA
Subject: Re: Fw: Final SAP for Dimock

Judging by the string of e-mails, this is a revision to a SAP submitted earlier (#120024) which was reviewed by Mike Mahoney. Please forward to Mike for review to determine if all comments were addressed. This needs to be fast-tracked. Use information from the QA assignment for #120024 for this one.

See me in the morning if you have any questions.

Cindy,

I'm logging in the two documents you want reviewed into the QA database. However, the normal protocol is to included a QA Request form with each document so all of the necessary information is available. Could you please complete one for each document you wish the QA folks to review and keep a blank on hand for the next time. Please simply email the completed form to me. Thank you.

Elaine

Cindy -

See SAP (Rev01). This is the latest. Again - it has not yet been approved.

- Kelley

Rupert,
Attached is the SAP (Rev01). Comments provided from Ft. Meade have been addressed in this SAP. Please let me know if you approve of this SAP, or if there are any additional changes which need to be made. Additionally, please let me know if you need a SAP (Rev02) to cover next week's sampling.
Thanks,

Suddha Graves

I would like Rupert and Kelley to weigh in on that question. For now, get me what you have been using. (if you can get the Ft. Meade comments addressed, that's fine.) I need something today....that represents our current plan.

thanks

I had forwarded it to our chemist/lab coordinator to address the comments from Ft. Meade. I just checked with him and we should be able to get you the revised plan today. Also in regards to the proposed analytical changes for the March sampling...do you want another revised SAP to reflect the changes?
Thanks,

Suddha,

I have been asked to post the final SAP on the EPA web page. I am not absolutely certain that I have the latest. So. could you send me a PDF of the latest?

thanks.

Rich
