EPA Data Summary
Dimock Residential Sampling
February 2012

Column Headers

MDL - Minimum Detection Limit

QL - Quantation Limit

RL - Reporting Limit

Sample Numbers

HW## - Collected at well head or closest point to the well head

F – Filtered sample (for metals analysis only)

Z – Duplicate sample

P – Sample collected at kitchen sink (in some cases this is post treatment)

A/B – Designates which residence the sample was collected (for cases with multiple residences on the same well)

RO – Collected from a residence containing a reverse osmosis treatment system (total metals only collected)

N – Sample collected from the new well (no old well samples were collected)

Validation Result Qualifiers

U – Undetected at the detection limitation for the method/instrumentation

J – Estimated value

R – Rejected value due to validation regulations

Yellow highlighted represents an analytical result greater than the trigger level.
