Subject: Re: FOIA 20-192: Derry NH permits

Thank you for your response.

Unfortunately, I lack trust in your process and therefore, not willing to pay.

Reason is, ive asked for information in the past regarding Eversource's ROW, lines 373 and 391...Deerfield -Scpbie Pond Londonderry/Derry.

Nt only did the search come up with no results, I have reason to believe the USACOE has plenty of information with this section that is overburdened with sensitive wetlands habitat, functions, and wildlife.. this section that is rapidly being converted, filled in,, degraded, destroyed, and lost.

Perhaps you could provide a brief search of the Northern Pass Project "ac upgrades" route of the project. If you find any information on this section, id be willing to pay

Unfortunately, I dont have the money to offer up for a blank report i don't trust..

Reason I don't have the money is because of the unpermitted, unmitigated, and unlawfully installation of new sizably upgraded utility assets/new energy facility built immediatly uphill from my well.

Work which for some reason required them to dig on, along, and down the opposite side of my rock wall...only 15 ft off the property line...only 20 ft from my well and 30 ft from my house at 1 Ledgewood Drive in Derry NH

Below are some pictures of the project.

Anyway someone can investigate this issue?

I've received Ms Lindsey Lefebvre as a contact, unfortunately, she has been completely unresponsive in numerous emails and phone calls.

I need this issue resolved and someone needs to protect the impaired prime wetlands/outstanding resource waters of the state. Someone needs to fix this mess

Dear Mr. Costello,

The Land Resources Management Program
Utility Maintenance Notification, file # 2019
issued to Eversource.

Your request and the file have been forwarc
Permitting Office. They will contact you req

We are writing to request additional information prior to processing your request. If we do not receive a response within 14 days we will administratively close your request. You may file a new request at any time.

Army regulations require the requestor to express a willingness to pay fees prior to processing a FOIA request. See AR 25-55 section 6-104. Fees include searching for records even when no records are found. You can indicate a willingness to pay up to a specific dollar amount. The rate for professional level search and review is $48.00 per hour (see 32 CFR 286 12(b)(2)). In order to determine the proper fee category please identify the specific purpose of your request.

Due to the current coronavirus pandemic, we may experience delays in our ability to process your FOIA request. During this emergency, we will process your request as expeditiously as possible. It is always easier to process requests that are tailored to specific documents so you may want to consider that in your request. Please feel free to narrow any request you submit. We apologize for any delay and appreciate your understanding during these trying times. If you have any questions you may contact us at (978) 318-8057.

Subject: [Non-DoD Source] Derry NH permits

Happy Manday,

Onestop is down again.

Therefore, id like to respectfully request this email be handled accordingly and urgently.

I'd also like to respectfully request that you provide me with the permits for Eversource's work in Derry NH.

ANY AND ALL PERMITS that would allow Eversource to do work in Derry NH.

ANY AND ALL PERMITS and/or notifications that NHDES has on file to which gives them the authority to dump truckload after truckload of whatever fill into Shields Brook impaired prime wetlands/outstanding resource waters and atop a major aquifer.

ANY AND ALL PERMITS giving them the legal right to install new sizable/considerable UPGRADED utility assets/energy facilities in new locations opposed to their lawfully located and original positions

THAN....

ANY AND ALL AUTHORITY giving NHDES the legal rights to allow them to construct new sizable energy facilities, with rate payer money, ahead of and necessary for, the New England Clean Energy Connect.
