We can add an additional owner in the comments section. The waste is being moved from Empire to Tree Hollow, correct? So someone please tell me which location needs to notify as what.

They are contiguous. Based on waste analyses (past and ongoing) they may have more HW than they think. The adjacent properties have at least one different owner (they were leasing…). It probably would help us all if we could somehow handle them all under one # since they are contiguous and operated by one entity…

As to what they should notify as, probably LQG as I don't think they are gonna be able to ship all their HW off fast enough to count as episodic…

The notification we got last week was for Empire Blvd. My understanding is that this is where all the waste was initially located and that it is being moved to Tree Hollow. Empire Blvd notified as VSQG, and a STG:

SHORT-TERM GENERATOR FOR THE REMOVAL OF OFF-SPEC SAMPLES AFTER ANALYSIS AND OUT OF DATE CHEMICALS FROM PREVIOUS LAB OPERATIONS.

Tree Hollow Lane has not renotified since their initial notification in 1998. I entered an implementer record in 2021 to reactivate their number. If this is incorrect, then Tom Valerio needs to be notified.
What should they be notifying as?

Linda

I do not understand. I have attached a map of the "Facility"

Maybe we can talk for a moment? I think that would be easier.
Thanks,
Brooke

I did not expect that they would receive a different one. I do not know how they completed the form. I just wanted to be sure that you all had all the information. The waste is being generated and stored on the 111 Hollow Tree Parcel.

111 Hollow Tree, 3311 Empire are contiguous, 3320 Empire and the fabrication building (I forget the address) are all contiguous.

Hi Brooke,

Yes, that's correct.
EPA ID Numbers are site-specific and there is normally only one number at a business address. If you have a business that generates waste at multiple addresses that are not physically connected (contiguous), each address needs a separate ID Number. In the case where generators are independent businesses that operate in suites within the same building, each business must have their own ID Number.

Hi Ericka,
Thank you for providing this. I am curious why the number is different that the number we have been using for TAV already for the data entry purposes? GAD033537663
Is it because they notified at a different address?

Thanks,
Brooke

Subject: Notification for New EPA ID Number ~ TAV HOLDINGS INC (ATLANTA) - GAR000096339

Contact Name: BRENT FAIRCHILD

Facility: TAV HOLDINGS INC (ATLANTA)

EPA ID Number: GAR000096339

We have recently received your notification of **NEW** waste activity (EPA Form 8700-12).

Our database has been revised accordingly.

The above referenced EPA ID number has been assigned to the facility at the address given. This number is site specific and will be used by the Georgia Environmental Protection Division and the US EPA for identification purposes. If you move to a new location, you should deactivate this number and apply for another number at the new location. You should also request deactivation of this number if the facility closes or you no longer generate hazardous waste or have activities that require a number. This number is not a permit. It is used for data management and information tracking purposes. If you are conducting activities at the facility that require a hazardous waste permit, please submit a corrected notification form and the required permit application. Your interest in protecting Georgia's environment is appreciated.
