Wow. . . works late. . .starts early!

Good Morning, Frank. . .

The closure plan submitted to OCDOH is the set of documents attached to the first email (1 of 2) as "image 2013-08-08-101251" It's a letter of July 29, 2013 to Ed Sims, a letter of July 31, 2013 to Mr Shohreh Karimipour of the DEC, a one page drawing and a letter of July 27, 2013 to Ed Sim with photos of what the engineer suggests was done on the campground property (with no one else observing or supervising) in advance of obtaining written approval of the closure plan.

I'm attaching another copy for your ready reference. I thought the other attachments were relevant to show the extent of the unknown issues affecting water and septic discharge on that property adjacent to mine and sometimes spilling directly onto mine.

Please let me know if this attachment meets the bill.

Regards,

Louise

> Good morning Louise! Question: I printed the attachments you sent and they appear to be development plans for the campground as well as DEC interpretations concerning their regulatory authority, or lack thereof, for individual septic systems receiving flows of less than 1,000 gallons per day. I thought you mentioned a septic system closure plan that had been submitted to DEC and Orange County DOH-can you send a copy of that too? Thanks! Frank

I attached them separately. Does that work?

> Ugh-just tried to look at the attachments and they are zip files so our firewall blocked them from delivery. The best thing to do is to rename the attachments-just the extension. So for example, instead of "DOH Papers.zip", rename to "DOH Papers.xls" and they should come through OK. I'll then rename them back to .zip so I can unzip them after I get them. Frank
