Kelly,

We'll plan to include Greg W's info in the Work Order attachment and send the documents/data to ANL once he's able to provide it.

Have you had a chance to determine when you will be able to provide the rest of your additions to the Work Order appendix on possible references? Same question related to when you will be able to prepare presentation slides/materials for an upcoming teleconference with ANL and EPA HQ, how long you would like that telecon to be scheduled for, and when your team would be available for that telecon? As we discussed during our 10/16 call with you, we are hoping to take your availability to ANL and set the date and time ASAP.

Many thanks,

Greg

@@@

One of the things that was brought up was providing the ANL Team who is going to do the work with all modifications that have been approved at the RCRA Ponds. Instead of me overlooking one of the approval letters that you prepared for these modifications, would it be possible to send the other Greg these?

Also need to talk to you later about yesterday's call with FMC. When is a good time for you?
Thanks
Kelly
