Greg Gervais is a branch chief in epa ha (oswer osrti) who is the lead for the "independent review of soil excavation and treatment technologies". This is the review bob perchiasepe, mathy and Dennis promised the tribes prior to issuing the FMC iroda. The review is being conducted by Argonne national lab under a hq ia. Greg is familiar with the RCRA issues and Carla met with him a couple times as the "review" was getting going.

Give me a call if you would like to discuss further.

Attorney / Client Email - DO NOT RELEASE

Who's Greg Gervais that's doing an independent study for the Tribes - has an EPA email.

Greg W, we are working with Greg G to do an independent study for treatment at the FMC Site. One of the things that was brought up was providing the ANL Team who is going to do the work with all modifications that have been approved at the RCRA Ponds. Instead of me overlooking one of the approval letters that you prepared for these modifications, would it be possible to send the other Greg these?

Also need to talk to you later about yesterday's call with FMC. When is a good time for you?
Thanks
Kelly
