**Subject:** Revised List of Available Technical Information for Independent Review

All,

A revised list of possible references for ANL is attached. As discussed in our call yesterday (10/16), please add any other documents, with urls if possible.

Kelly, you mentioned some additional RCRA documents in a September email. The current list should contain all of the UAOs, with their appendices, but we were unable to find the other 2 documents you mention. If you have urls or copies, please provide them. If not, do you have a more complete citation? The excerpt from your email is below.

From Kelly on 9/16:

"We identified some specific documents UAO- RCRA data from the UAO's, the original PSCS for EMF and Pond 8s Recovery Process document ( April 1, 1993) that should be made available to the team."

Thanks.
