Does this need to be routed for concurrence?

**Subject:** Letter for Dennis' signature

Hi, Jen and Matt. I need to try to get this letter signed by Dennis **today** (I think he might be in DC, so either his stamp or his acting?) so I can get it off electronically to the Tribes to confirm our consultation teleconference for next week.

Not sure if it matters, but this would technically be a response to the attached CMS which was provided to us as an "FYI – no response."

Let me know if you have questions/concerns.

Thanks!!
