Subject:	RE: FMC Extension Request on Response to EPA"s April 26, 2016 Comments on PSVP and OM&M Plan
Date:	Tuesday, May 10, 2016 6:41:13 PM
Attachments:	image003.png image004.png

EPA can grant a reasonable time extension but an additional two weeks might not be necessary. Please identify which April 26, 2016 comments FMC believes need to be discussed in order to resubmit fully responsive documents. Thanks.

Subject: FMC Extension Request on Response to EPA's April 26, 2016 Comments on PSVP and OM&M Plan

Jonathan-

We have review EPA's April 26, 2016 comments on the PSVP and OM&M Plan and for the most part the documents are being revised consistent with those comments. There are a few comments that we would like to discuss with you prior to finalizing the response to comments and revised PSVP and OM&M Plan. Given the current priority on resolving any outstanding issues and finalizing the Contractor Construction and Construction Quality Control Plans, and Remedial Design and Remedial Action Work Plan for the Soil Remedy so that the 2016 capping phase can begin, FMC is requesting an extension for resubmittal of the PSVP and OM&M Plan to May 23, 2016. I will contact you later this week to schedule a conference call for the week of May 16 to discuss a few specific comments and proposed responses / revisions to the PSVP and OM&M Plan.

Regards,
Rachel
