EPA has been in contact with the Tribes' cultural resources staff. I have alerted you about this in voicemail messages. Please call me back so that I can provide you with an update. Thanks.

Subject: FW: Cultural resources survey at FMC Pocatello location

Jonathan, it appears that the survey will take place next week. Our Cultural Department has a concern that they have not been actively involved with the 106 work. In accordance with NHPA, Tribes should be included during the planning.

Thought I would share what I was told about this.

Thanks

Kelly

Subject: FW: Cultural resources survey at FMC Pocatello location

I have a concern with this firm, Booz Allen Hamilton, stating that they have been working with EPA regarding Section 106 of the NHPA. They have not been conducting true 106 consultation from the start. The Tribes have to be included from the beginning of their proposed project with regard to any affects to cultural properties.

I will make myself available to assist with the survey next week.

Subject: Cultural resources survey at FMC Pocatello location

LaRae,

I am a cultural resources lead at Booz Allen Hamilton, and we have been working with the EPA regarding Section 106 consultation and compliance at the FMC Pocatello location. The EPA let me know today that I could contact you regarding the FMC Pocatello site and the planned cultural resources survey. I left a phone message for you and would like to discuss the location, survey plans, and concerns for cultural resources since I know that there has already been some discussion with the EPA about this.

Typically I would send a formal request for consultation, and will prepare one, but given prior discussions that have occurred with the EPA and the short timeframe before a cultural resources survey is planned, I am hoping that you can be available for a preliminary discussion. We are planning to be at the location next week (Tuesday, 5/16 & Wednesday, 5/17) to conduct an intensive pedestrian survey. I am hoping that you, or other members of the Shoshone-Bannock Tribes cultural resources staff, might be available to conduct the survey with us or be available to meet during that time.

I can be reached at this email address or by phone: (510) 967-6550.

Thank you,

David Cohen
