Subject:	FMC OU Soil Remedy Comments
Date:	Wednesday, November 25, 2015 3:29:55 PM
Attachments:	FMC Soil Remedy RD and RAWP Comments 11-25-2015.pdf

Marjo:

Attached are EPA comments provided on soil remedy Pre-Final Remedial Design and Remedial Action documents submitted under the UAO for RD/RA at the FMC OU. These comments were developed in coordination with the Shoshone-Bannock Tribes and Idaho Department of Environmental Quality.

As we discussed over the telephone yesterday, EPA expects comments on the Addendum submitted October 27, 2015 to be addressed through revision to the soil remedy Remedial Design and Remedial Action Work Plan, and not through a revised Addendum. That is described in the attached set of comments, and is consistent with FMC's most recent project schedule, submitted November 16, 2015.

Consistent with the UAO and most recent project schedule, EPA has set a due date of December 18, 2015 for submittal of the soil remedy final RD for EPA review/approval and resubmission of the soil remedy RAWP. Please contact me if you have questions about the attached comments. Thanks.
