Subject: RE: Draft Proposal to West Lake RPs on additional characterization and sediment samples along the northeast portion of the landfill property

Good suggestions and comments,

Ex. 5 - Deliberative

I'm open to suggestions.

Tom

Lynn and Alyse,

Let me know what you think of sending the following email to Paul R. for additional characterization and collection of sediment samples between the location of Sediment 4 and the detention pond on the north corner of the landfill property located between the Area 2 fence and St. Charles Rock Road. Let me know what you think. I am particularly interested in your thoughts on the last paragraph.

Paul,
