Will do.

Paul and Julie are now official liaisons to the IMT. They were glad to have them come aboard.

Hi Judy. I'm away from my desk all day and can't figure out how to send to the full list from my iPhone. Feel free to send alone, you can use address list from day before since I bcc sent yesterday. Or I can include tonight. Expecting a quiet day with lots of people out so including tonight would probably be fine too. Good luck with your training next week. I hope you've had a chance to pass along the imt info to Paul and Julie.

Katie

> Hi Katie – Sorry I didn't get the media monitoring report to you last night. There are several items of interest that might merit a morning edition, especially this story last night that features EPA in the headline. http://www.kgw.com/news/local/lawsuit-says-bullseye-glass-knowingly-released-toxics-lobbied-with-epa/66831123

need should probably think about whether this is something we want to set up eventually.

There was a protest against DEQ in Pioneer Square yesterday. Picture attached. There will be a number of articles in the media update that will come out tonight.
