Please send me the other monitoring data you have, on the Excel spreadsheet. Thanks!

Greg was out today. I will try to get hold of him on Monday, Sarah as well.

Press release looks good.

Yes, I am happy to be part of the response. I am not super comfy with radio interviews, but I can help. I think Madonna is also a good contact as the person who knows how we establish standards and what is considered. I don't know if you would want to go this far, but we can reach out the rule writer as well.

Subject: Draft Final Bullseye Glass draft desk statement

Hi All -

Hopefully I captured all of the many inputs for this external desk statement for your final review. It ended up making it a bit shorter! Please take a look at this penultimate version and let me know of any final concerns.

Two additional requests. First, I believe most of you saw Mark MacIntyre's media inquiry from OPB about this issue in relation to the federal air program. Please let me know if you should be involved in review of the response to that question. Second, please let me know if you want off of this active and growing e-mail chain.

Thanks, Judy

Desk Statement: SE Portland - Metals Contamination from Bullseye Glass
