Subject: BDCP Handouts
G and O 4 17 09 SC Handout final wws.pdf
DWR-BDCP Draft SC Notes 02 27 09 v 4 clean.pdf
DWR-BDCP Draft SC Notes 02 13 09 v 3 clean.pdf

Attached please find 3 of the 4 handouts, Publid Outreach will be coming this afternoon.

Aside from the meeting notes, the latest draft of the Aquatic Goals and Objectives package is attached and will be the subject of review and discussion at tomorrow's Steering Committee meeting. This draft reflects numerous adjustments made by the Workgroup during its last three meetings on the topic over the course of March and April which are intended to respond to the relevant recommendations of the Independent Science Advisors' report on Adaptive Management and other refinements. They include:

1. Including explicit "problem statements" before each major goal so as to make explicit the tie between the underlying stressor affecting the system and the goals intended to address those stressors;

2. Clarifying the focus of the Ecosystem Goals on ecosystem-related parameters and eliminating any commingling of those goals and objectives with the species-specific goals and objectives;

3. Making a series of refinements in the specific working of multiple goals and objective throughout to respond to topic specific recommendations of Workgroup representatives; and

4. Including an expanded introductory section to the package that describes the function and purpose of these goals and objectives.
