Subject: FW: sample for discharge
Date: 12/10/2012 09:01 AM

Emmy,

Thanks for the opportunity to talk this morning regarding the upcoming discharge from the leachate collection tank at The Dalles facility. We will move forward with the discharge in accordance with the NPDES permit and will add you to the correspondence regarding the discharge. The initial email regarding the discharge from Arcadis is provided below; however, I requested that they hold off until I could discuss with you. The schedule will likely be pushed back slightly and we will update you on the revised schedule.

Please contact me with any questions or comments.

Thanks,

Brian

Subject: EXTERNAL: sample for discharge

Hello Fredrick,

This is to notify you that we will be initiating the Discharge Protocol Monday morning and, pending favorable analytical results, anticipate starting a discharge Wednesday afternoon. The current tank volume is at about 157,000 gallons; heavy rains earlier this week increased the flows to approximately 4500 gallons per day. I will firm the volume up Monday after Dan pumps the lift stations down, shuts the pumps off, and collects the sample from the tank.

Thanks Fredrick.

Mike
