Daily Log 12/3/13

arrived on site at 06:45. went to 8,9 south ground floor and did a visual and final air clearance for TMC. Went over to "A" building around 9:00 am to do a head count for NCM. Went to the "A" building 1st floor where I noticed open boxes of plaster, Dry and in a Non-Regulated area, came back over and made andy Meteyer aware of the situation, TMC asked me if they may move their office into 4 south 1st floor and out of the St Chapel Conferance room, Andy said that would be fine.

Went back to "A" building in afternoon Around 11:30 boxes still open, Dry plaster on floor, Chris Crothers and I went and talked to mike white in afternoon to have them de-marcate the area of "A" building as well as the 8,9 north ground floor area. Corrective actions have been taken. Took samples of 10 south Roof.
