Conversations with LEPC about Belfonte Release

Enforcement Sensitive

Date:	Several in December 2016
Attendees:	See notes below
General Topic of Discussion:	Did Belfonte send a follow-up letter or discuss the release at an LEPC meeting?

Notes:

Left a message on Erin Lynch's (816-701-8390) machine on 12/5/16, 12/7/16, and 12/8/16 asking whether the Mid-America Regional Council / Mid-America LEPC received a follow-up letter or discussed the release at an LEPC meeting.

Talked to Erin Lynch around 4:30 pm on 12/8/16 and they have been swamped and have not had time to look for through the records. She thought it would be next week before they would have time to search the records.

12/14/16 (TJB. 12/20/16)

Talked with Rob Cole (816-474-4240) with MARC at 1:06pm on 12/14. He indicated that upon an initial search they did not find a follow-up report but wanted to know the exact date of the release so that he could do a more thorough search. He also mentioned that there was a transition in staff around that date which is slowing down the document review. I told him the date of the release and mentioned that the SERC had not received one so it's possible one was not sent to the LEPC either.

Talked to Rob Cole around 10:50 am on 12/20/16. They did not find any follow-up letter from the facility in regards to the July 2016 release. He also looked through the LEPC meeting minutes since the release and did not see mention of Belfonte discussing the release during an LEPC meeting.
