Yes, I think tomorrow is fine. We can send and put on the web tomorrow.

Thanks.

You've seen Tim's input on the timing of the upcoming meeting, which seems reasonable to me.

Given that this went public this morning, is there a chance to forward our comments tomorrow and begin talking to the State Board then? It doesn't seem reasonable to lay this on them the Friday before a holiday weekend for a meeting that could be held as soon as the first day after this weekend.

FYI – this is what went public this am. Not sure if they will also do a press release tomorrow.

OK, it looks like this is public as of this morning. I will wait for Kathleen's or Kathy's decision about when our comment letter is also "public." I have three calls on it already, and I think Erin does as well.

Lead Agencies to Publish Partially Recirculated Draft BDCP, EIR/EIS, and Implementing Agreement

The Department of Water Resources and the other state and federal agencies leading the Bay Delta Conservation Plan will publish a Recirculated Draft BDCP, Environmental Impact Report/Environmental Impact Statement (EIR/EIS), and Implementing Agreement (IA) in early 2015. The agencies are currently reviewing the comments received through the public comment period that ended on July 29, 2014. The scope of the partially recirculated draft documents will be announced in approximately six to eight weeks. The recirculated documents will include those portions of each document that warrant another public review prior to publication of final documents. The public will also have the opportunity to review the final documents prior to their adoption and any decisions about the proposed actions.
