RE: Community Soils Operable Unit (CSOU) – Regional Area Cross-Reference List

Dear Charlie:

Enclosed, please find 5 copies of a spreadsheet cross-referencing resident ID codes presented in the Final CSOU RAWP/FDR (Appendix A3, applicable to the Regional Area) to resident ID codes contained in the current CSOU database. The spreadsheet summarizes sampling results (Phase 1 and Phase 2), and provides explanation for why certain residences listed in the RAWP/FDR have not been surveyed or sampled to date.

This cross-reference spreadsheet will be scaled down in the near future, as agreed to during the April 15, 2004 CSOU meeting involving Atlantic Richfield Company and Agency personnel, to contain only residences subject to remedial action (i.e., weighted average arsenic concentration $\geq$ 250 mg/kg arsenic). The scaled down spreadsheet will be used to track the progress of Remedial Action within the CSOU, and will be updated quarterly. If you have any questions, please contact me at (406) 782-9964, ext. 410.

Sincerely,

for

Lorri Birkenbuel
Project Manager
