BWS Board Resolution No. 860 2015.pdf

The intent of this attribute is to document that applicable local policies or resolutions from third party SME's are addressed by decision makers as opposed to being ignored if they were not in the report. Although these policies or resolutions are not part of our rules or regulations they should be acknowledged.

We think that a single sentence or two detailing whether or not a particular alternative is able to comply with specific third party SME policies or resolutions should suffice.

Of particular note, I am attaching the BWS Resolution No. 860 from September 28, 2015. This is an example of such a third party SME resolution. If other policies or resolutions from third party SMEs become aware to the Parties, we should identify them and add them to the Report.

Thanks,

Omer,

Please clarify the intent of Additional Attribute #1 for the TUA Report.

1. Consistency with local policies or resolutions. The report should acknowledge whether a

particular alternative is able to comply with policies or resolutions from third-party subject matter experts.

Is this meant to be a general Yes/No entry, or to address individual policies/resolutions. It would be helpful if you would provide an example of a policy and/or resolution from a third-party SME, and when these will be identified.

Very Respectfully,
Stephen

Jimmy,

I have attached the Regulatory Agencies' comments on the Sections 2,3 and 8 meeting minutes summary.

I am sending out these comments as opposed to Bob or Steven Chang, the identified AOC project coordinators. Please let me know if you would prefer in the future for the Regulatory Agency comments to come directly from only those two.

Steven Fujino, this attachment also includes two additional attributes that the Regulatory Agencies would like to be included in the Scope of Work for the TUA Report.

Let us know if you have any questions or comments. I will be out for the rest of the day and will respond to your comments on Tuesday morning. Thanks and have a good weekend.

Project Coordinators,

Attachments:

A) Red Hill AOC Scoping Meeting Summaries 18 Dec 15
B) Red Hill AOC Section 3 Attach 1 18 Dec 15
C) Red Hill AOC Section 6 & 7 Attach 1 18 Dec 15 (to be redacted due to low level procurement sensitivity)
D) Red Hill AOC Section 6 & 7 Attach 1 18 Dec 15 Clean
E) Red Hill AOC Section 6 & 7 Attach 2 18 Dec 15 (6 of 12 files total)

I'm providing the subject Scoping Meeting Summaries IAW the AOC:

1. Paragraph 1.3 - Circulating a summary of the subject meetings to you for concurrence. As agreed additional scoping is needed for all sections.

2. Paragraphs 2.1, 3.1, 6.1, 7.1.1, 7.2.1, 7.3.1, and 8.1 - Scoping Meeting for Tank Inspection, Repair, Maintenance (TIRM), Tank Upgrade Alternatives (TUA), Investigation and Remediation of Releases (IRR), Groundwater Flow Model (GFW), Fate and Transport Model (F&TM), Groundwater Monitoring Well Network (GMWN), and Risk/Vulnerability Assessment (RVA).

3. IRT to attachment C, the Navy/DLA sees this as low level procurement sensitivity since this has not been contracted out yet. As such we can release the procurement sensitive designation after initial EPA/DOH review if EPA/DOH agrees to promptly post to it Red Hill website.

4. Due to the size of the files, I will send a second transmittal to complete attachment E.

Please let me know if you have any comments. I'll be out of the office from 23 Dec - 5 Jan. During this time CDR Vogel, alternate Navy/DLA Project Coordinator, will be available.
