Jimmy,

Thanks for sending this and the Corrosion and Metal Fatigue Practices Report. While the file contains the correct information, the title of the file is in error. The title of the file is "Red Hill AOC Para 4.2 Outline of Corrosion and Metal Fatigue Practices Report Final.pdf" while the actual document is "Outline of Current Fuel Release Monitoring Systems Report 26 October 2015".

For legal purposes I created an EPA file that will contain all deliverables. I want to also include the cover emails in this file. While I can simply rename the file so it correctly refers to document contained within it, in your email, the file will still be mis-named. Then I would have a file with one name that doesn't match the file named in your email. Can you please rename the file and resend it and the cover email?

I did see your recall email so maybe this is something you are already planning to do.
