---

Hi, David -

I'm unsure as to the protocol on who/how to send such a print request to you folks in the Mail Room.
We had a contractor do up a fact sheet (attached to this email) for a site in Idaho (thus why this isn't coming from John Livingston), and I need it printed up in 11x17, double sided, folded--it's a 4 page fact sheet.
The team needs 200 copies (150 would be okay too) before they fly out tonight/tomorrow morning.
Is such a request feasible?
Please let me know.

If you have any questions, please ask. Thanks for your help on this! Cheers - Julie

Attached is the final fact sheet for printing, which incorporated changes made by both Jonathan and Julie. Cheers, Vivian _____

Send me these last revisions and we'll be good to go. Thanks, Vivian
