Ok.

It might be helpful for R9Deep to know how you want this and other comments/info requests handled.

I usually do not toss any such emails but tuck them in a folder or more.

Forwarding them is usual also, at least the first so that the assigned project officer is known.

Subject: Price Canyon application for Safe Drinking Water Act exemption

Dear George

My name is Christine Molony and I live on the corner of Ex. 6 - Personal Privacy, which is down from the oil fields about 1 1/2 to 2 miles.

For years I have been experiencing an oil slick on my well water. I am afraid to drink it myself. Since I grow my own food and have livestock I am concerned about Freeport McMoRan getting an exemption from the Safe Drinking Water Act which will lead to more pollution of my and my neighbor's precious water source.

I oppose any exemption and believe they should be held accountable for the amounts of water already contaminated and made to stop any further pollution.

Respectfully,

Christine Molony
