Liz,

Sorry, I had to check with our IT folks before linking to your FTP site, where I'll be entering my password. I'll enter the FTP site this PM.

I'm checking my 7520 data again to see if there have been any updated relevant information. Should be able to finish this by Friday.

RE the annual inventory task, why don't we pencil in our calendars a date mid-October, week of Oct. 12 ? If this is too late, let me know.

Jerry

Subject: DOGGR reporting obligations

Hello Jerry:

Per our conversation earlier today, EPA HQ would like to receive the 7520 forms 2A, 2B and 4 for the period of 10/1/2013-3/31/2014.

We also need to confirm that the 7520s for FY13 dated 12/6/2013 represent DOGGR's final reports for FY13.

In a separate email you should have received an invitation from me to download a document from the EPA Regional FTP site called Microsoft OneDrive. Please let me know if this email came and if the link worked. If it works, we can add more of the UIC data flow documentation to that folder, and give permission to the people involved at both agencies to use the documents there. If not, then I can create a zip file of the background documents and email them to you.

DOGGR data on inventory from FY13 is already posted on the DOGGR public FTP site at ftp://ftp.consrv.ca.gov/pub/oil/EPA/.

Hopefully we can reconvene in advance of the annual inventory due date. EPA HQ has moved that due date to coincide with the end-of-year 7520s (November 15.)

Thanks

Elizabeth Janes
