David

We also have a request to have a teleconference number since some of the water boards staff will not be able to make the trip.

John

While the morning would be preferable due to late afternoon/evening traffic, were ok with the afternoon slot.

Hi Pat and John,

I would like to pin the timing down on this meeting. The afternoon of March 8 works best for us here and with Pat and her staff, although EPA folks can do the morning slot. John, I don't know the various roles of State/Regional Water Board staff on this matter, so I am asking if you can clarify whether we can move the meeting to the afternoon or need to keep it in the morning. Feel free to give me a call if that would be easier. Thanks, David

David,

The original morning slot works best for us as we already have some appointments/meetings

scheduled in the afternoon.

Regards.

Hi Folks,

I have a request internally to move the meeting on March 8 to the afternoon – 1-3pm. Please let me know if that will still be okay or if we need to keep it in the morning slot.

Thanks,

David

David

Either day is ok with me for a meeting in SF. I've copied some critical staff to make sure they can attend.

Subject: Aquifer Exemption

Hi Pat and John:

I wanted to reach out to you to see if we can set up a meeting to discuss the proposed Arroyo Grande aquifer exemption. We have now had a chance to review the State's submittal and we would appreciate an opportunity to discuss the package and some questions we have. We have a

couple of blocks of time that would work for us next week – 10-12 noon on Tuesday March 8 or 10-12 noon on Friday March 11. An in-person discussion is preferred and we are happy to host that here in SF, if that would work for you.

We are interested in sharing some input/questions with you prior to the meeting to make the discussion as productive as possible, but I wanted to pin down the timing/logistics as soon as possible. I've limited the distribution of this email and ask that you invite others from your agencies as you deem appropriate.

Thanks,
David
