Apologies David,

Slipped off the radar, but I got it done yesterday and my assistant confirmed that it went in the mail yesterday afternoon.

Sorry to be so late in getting it to you.

Steve

Hi Steve,

I wanted to check in with you on the UIC grant letter that we discussed (draft attached). If you have questions, feel free to give me a call.

Thanks,

David

Hi Steve,

Attached please find a draft letter for your review, per the message below. If you have any questions, we can discuss this afternoon. See you at 1pm.

Thanks,

David

David,

Sounds like a plan. Thanks.

Steve

Subject: RE: Meeting next week

Hi Steve,

Thanks. Looking forward to the discussion on the AE. Another item I would like to take care if possible next week is getting a letter from you confirming that EPA will be using the state's FY15 UIC grant funds to support a contractor charged with reviewing state-submitted aquifer exemption packages. We had discussed previously that EPA would be holding back these funds to help ensure adequate technical support and timely reviews on the packages submitted, but we need to have that documented in writing. My thought is that we can draft the letter and send it to you for review prior to Wednesday. If you have questions we can address them while we are there Wed.

Thanks,

David
