Agenda

40TH ST. STORMWATER IMPROVEMENTS MEETING
Wednesday, June 5, 2013
City of Denver & EPA

1. Introductions

2. **OBJECTIVE:** To share information and identify and discuss concerns with planned storm sewer alignment.

   - Would the alignment of storm water improvement project create a preferential pathway for contaminant migration?

3. Summary of Superfund Activities @ VB/I-70 – Operable Unit 2

   - Status of Remedial Investigations
   - EPA GW Sampling Results

4. City Description of Stormwater Improvement Project

   - Purpose
   - Reason for Planned Alignment
   - Property Ownership of the Alignment
   - Investigations-Studies Undertaken during Planning process
   - Schedule

5. EPA's Concerns

   - Additional information regarding GT investigations
   - Handling of hazardous materials during construction
   - Potential future groundwater concerns

6. Next Steps – Wrap-up
