Sounds good. Lisa – is it ok if I let you know if there is anything about which we need direction.

I am working right now on something to send the regional board which will go to all parties including you which is agenda like and will give you an idea of friday. I have a five-ten minute amount of something I would prefer to say on the phone if there is a time we can have a brief chat today or tomorrow. Your assessment below is correct.

Thanks Michele,

I wanted to check in about Friday. What do you anticipate needing from us on the call? It seems that we'll be discussing current use and the water wells with some additional people from the State. We're able to answer any additional questions their technical people may have. If things evolve into discussing operational limits, we'll go into listening mode.

How did last week's meeting go – are any new AE packages on the way?
