Hi Jerry,

Can you please clarify – you are looking for which edition of Volume III, not Volumes I and II, that was included with the Primacy Application?

Subject: MOA Documentation

Hello Michele,

We are trying to complete some documentation in response to a Public Records Act (PRA) request on aquifer exemption and an item I would like to clarify are the references in our MOA cited in defining what our exempted aquifers were. In our primacy document, DOGGR cited the publications "California Oil and Gas Fields" Volumes I and II. Presumably, based on the timelines, these were the Volume I – 1973 and Volume II – 1974 editions. In the MOA, Volume III was already cited and referenced. I want to confirm from you what edition was submitted and received by the EPA as part of DOGGR's primacy application documentation. I'm not sure whether it was the Fourth Edition – 1982 or the Third Edition – 1981?

Thanks for your help and clarification.

Jerry
